Seattle

"Design isn't just about creating a cool look anymore. It's also about solid business strategies." And about keeping 42 employees happy and productive. Not to mention keeping pace with clients like IBM, Nabisco, Nintendo and The Walt Disney Co.

"For me, the act of making

ALDUS Pagemaker

"When you're dealing with lots of complicated, multitiered documents that require constant reorganization, PageMaker and the Power Macintosh are a pretty incredible combination, unbeatable really."

design is a spiritual thing—taking this energy, this idea, giving it life, and watching the vitality of a concept manifest itself

in different ways. That's where native PageMaker on a Power Macintosh comes in. It's incredibly fast, so we can explore more manifestations in less

Powered by the RISC-based PowerPC™ microprocessor, Power Macintosh™ takes desktop computing to new levels of performance, compatibility and productivity. For the name of the authorized Apple reseller nearest you, call Apple today at 800-732-3131, ext. 850.

time. And create better design. It's an enlightening experience. Profitable, too."

The new, accelerated version of Aldus® PageMaker™ combines its award-winning precision, flexibility and intuitive approach to document layout with the blistering speed of Power Macintosh. For more information and details on upgrades, call Adobe today at 800-685-3543.
