Macintosh

PowerBook 3400c

There's no shortage of things you can do with our best-selling PowerBook 1400, either. Play CD-ROMs, surf the web and send e-mail to your boss back at the office.*

Incite rubbernecking.

Run your own in-flight movie.

We didn't build the world's fastest laptop just to show off. But that's not to say you can't. Among its numerous talents, the PowerBook® 3400 is the ideal laptop for presentations. Its awesome speed means faster, more beautiful graphics, and its 12.1-inch diagonal screen is the perfect canvas to display your genius for persuasion.

But don't let the 3400's blinding speed blind you to its other features. Like its hot-swappable expansion bay. It lets you add all manner of drives, whether floppy, magneto-optical, CD-ROM or a second hard drive. All without putting your computer to sleep. To keep you connected, there's also a built-in Ethernet/33.6 Kbps modem.

At the risk of sounding immodest, there's no end to what you can do with the new PowerBook 3400. To learn more, visit www.powerbook.apple.com. Or call 800-538-9696 for the name of the Apple reseller nearest you.

The Macintosh PowerBook 3400 series.
It's everything you'd expect from the world's fastest
notebook computer. And more.

**Buy a new PowerBook 3400 before September 26, 1997 and get
32MB of RAM, an extra Lithium-ion battery, and more—FREE!**

Think how much more you could do with the world's fastest notebook computer. Hit the road with graphics-intensive multimedia sales presentations. Re-calc massive spreadsheets in an instant. Host your own video conference. Watch a movie on CD. Turn PC notebook owners green with envy.

No wonder. According to *MacUser* Editor Andy Gore: "Every so often a product comes along that leaps so far ahead of the status quo that it redefines our expectations for an entire product category... Apple's new PowerBook 3400

is simply the fastest portable computer—Windows or MacOS based—we've ever tested."—*MacUser*, April 1997.

Buy a new PowerBook® 3400 before September 26, 1997, and you'll also get a FREE 32MB RAM card (a \$300 value), a FREE extra Lithium-ion battery (a \$200 value), and a coupon for 50% off a VST dual battery charger (a \$170 value). This offer, when combined with Apple's new low pricing, could be worth as much as \$1,000. What more could you ask?
