

The EasterEggs!

Code Names Easter Egg Code Name: **LEE**

To see how many easter eggs you have gotten, you can just click in the about section and it will tell you, but if while you are in the about section you press **control-F12** a small window will pop up showing you the codes for the easter eggs that you have gotten.

'Away' Signs Easter Egg Code Name: **AWY**

When you are active on a server you will have the standard visual. The name bar with the triangle. There is also a option to set a standard hidden secret. You can change the 'Triangle Arrow' into a 'Sleeping zzz' visual. When you want to set this option you have to open again the 'MessageBox' or the 'PrivateChat' and type

/a or /away to set the 'zzz'.

Also if you arent sleeping, just away from keyboard" or "**AFK**" you can type **/afk** to put icon that show you are away from the keyboard

When you are back you only have to reset either one of these by typing

/b or /back The "zzz" or "afk" will turn back into the default triangle.

User Icons Easter Egg Code Name: **USI**

You can get a small icon to appear next to your name by typing a certain code. A few examples are shown below, but many more exist. Type: **/xicon "iconname"** (without the " ")

rolls eyes = **/xicon roll**

big grin = **/xicon grin**

winking = **/xicon wink**

normal smile = **/xicon smiley**

surprised = **/xicon shock**

cyclops = **/xicon cyclops**

devil = **/xicon evil**

lightning bolt = **/xicon lightning**

bomb = **/xicon bomb**

pacman ghost = **/xicon ghost**

yin yang = **/xicon yinyang**

radiation symbol = **/xicon nuke**

moon & stars = **/xicon moon**

hearts = **/xicon loves**

Patte **/xicon grrr**

Fade Effect Easter Egg Code Name: **TRN**

To create the fade effect on the namebar you have to open the 'Message' box from your menu or the 'Private Chat'. When these boxes are open you must type

in the type area:

/transi

/ME Talk Easter Egg Code Name: **MEA**

To make something you said appear as an action in a chat or message all you need to do is type

/me before what you want to say. This is a very common option in many chat programs.

Frazam Easter Egg Code Name: **FRZ**

This easteregg allows people to have encrypted conversations in a chat. All the people need to do is all type **/frazam and any number** next to it, and then only all the people who type that certain code will be able to read what they are saying in the chat, to the others it will just appear weird. For Example : in the above image, Spratt_ had typed /frazam 12 so when he said "hey whats up?" to the unnamed guy, the unnamed guy just aw and encrypted message, he would have had to type /frazam 12 to see what Spratt_ was saying.

Character Box

When you want to view this CharacterBox you only have to open a typingbox like 'PublicChat' or 'Message' and type on your keyboard: The Ctrl button on the left and the * is located in the Keypad of your keyboard. When pressing these two buttons at ones this CharacterBox appears. Now you're able to click the characters you like to use.

Red Text Easter Egg Code Name: **RDM**

This one is only for the Admins of KDX Servers. If you want to get the attention of visitors you can make the text of your folders red and also center the text. First, open the 'File' dialog and give a Ctrl - click on the folder you want to change and then choose 'Get Info' Now... type in front of the filename two zeros > 00 and the ringle ~ After that you place your cursor at the end of the filename and then press Ctrl and the asterisk * found on the keypad. The 'CharacterBox' appears and now you have to click the third 'blank' spot from the right on the bottom. In the filename field you wil see nothing. But when you save it and refreshes the folderbase you will see that the text is red now. The third blank will center the text.

Fast Url

When you are chatting with someone and the person who you're talking to type an url you don't have to mark the text, copy it into your browser and go to it. Now, you only have to hold down the Ctrl button and click with your mouse on the url wich is displayed on your screen. You will see that KDX opens your browser and goes to the url.

Pink KDX Easter Egg Code Name: **PNK**

To get a weird pink kdx, all you need to do is get into a public chat and type **phink** then it will make ur entire kdx a very bright pink color. This will freak people out ;).

About Flame Easter Egg Code Name: **FLM**

In the About section there is a motion of a lame at the bottom, to make that flame go from shades of blue to purple, all you need to do is hold down command-option-shift while opening the about section, and instead of looking like the first picture, your flame will look like the second one.

Piggie Easter Egg Code Name: **PIG**

Ok, this easter egg will make you look like a piggie on kdx. First thing you need to do is get into Settings , then click on your Foreground Color and type **DEAD00** Then after you have done that, click on Background Color and type **BEEF00** . Then save settings, and you should now look like a piggie
