**★ STELLAR SHUTTLE** by Matt Rutherford. You're on a dangerous rescue mission to the planet Ttam. You must maneuver your shuttle craft through streaking asteroids to reach narrow landing wells and load your refugees for the trip back to the mother ship. But beware of the dragons! These mighty monsters have a taste for Ttami and can be counted on to try to thwart your rescue efforts. An arcade style game. Available only for **ATARI 400/800**, joystick controlled (16K Cassette/32K Disk).

**★ DEADLY SECRETS** by Scott Schram, Corey Kosak and Louise Klumper. Our hero escapes a burning building via an involved and perilous route. Finding himself in a secret military base below the lobby, he's ordered to capture a terrorist who has stolen the fail safe code that launches a nuclear attack! An adventure game.

**★ SEAFOX** by Ed Hobbs. In a lone submarine you take on a convoy of enemy ships and its escort, while dodging exploding depth charges, mines and torpedoes. You will need superior maneuvering ability, courage and a welcome aquatic ally to survive! Keyboard, joystick or paddle controlled. Also available for **ATARI 400/800**, joystick controlled (48K Disk).

**★ THE ARCADE MACHINE** by Chris Jochumson and Doug Carlston. Create your own arcade games! It's easy! No programming knowledge needed. Comes with a selection of full color monsters (or you design your own), dramatic explosions and sound effects, automatic high scoring features, and more. Requires Applesoft in ROM or RAM and 16 sector controller.

**★ SERPENTINE** by David Snider. Giant serpents set forth to slay their slithery cousins. To add to the fun, the snakes lay eggs and fight ferociously to protect their young! A fast arcade style game with many levels of play. Keyboard or joystick controlled. Also available for **ATARI 400/800**, joystick controlled (16K Cassette/24K Disk).

**★ CHOPFLITER** by Dan Gorlin. With realistic throttle action you maneuver a daredevil rescue chopper. Requires joystick with two buttons. Also available for **ATARI 400/800**, joystick controlled (48K Disk).

**★ LABYRINTH** by Scott Schram. Descend into the labyrinthian depths of Prince Julian's long abandoned diamond mines in search of treasure. You'll encounter terrifying creatures guarding dark corridors with walls that move constantly to expose entryways and seal off exits. Eight levels. Keyboard controlled. Also available for **ATARI 400/800**, joystick controlled (16K Cassette/32K Disk).

**★ DUELING DIGITS** by Brian Crouch. It's a dark age. The art and science of math is all but lost. You battle the forces of ignorance (or dangerous human opponents) to capture glowing "sacred" numbers and fit them into the "Expression." For one or two players. Paddle controlled.

**★ STAR BLAZER** by Tony Suzuki. Test your ability to attack and evade supersonic tanks, heat seeking missiles, explosive balloons, enemy jets, and fuel guzzling bluebirds in your maneuverable fighter, as you battle to clear away the Flatlanders' radar, ICBM installations, and headquarters. Keyboard or joystick controlled. Also available for **ATARI 400/800**, joystick controlled.

**★ TRACK ATTACK** by Chris Jochumson. Steal gold from a moving train by intercepting it in your fast car! Jump the train and run across the top to take control of the engine.
